

Popular design is compatible with most manufacturers' volleyball systems, whether 3", 3 1/2" or 4". Integrated ratchet style clamp device attaches platform to pole quickly and securely. Comfortable width platform adjusts in 1" increments from 47" to 53" height for officials and play at all net heights. Standard gray 1" thick player protection padding meets all NCAA, National High School Federation, USBA and FIVB rules. Transports on two floor friendly urethane wheels and rests on non-skid rubber floor pads when in use. Powder coated 1" heavy wall tube construction. In addition to the gray, Black, Maroon, Navy, Royal and Scarlet padding is available at no additional cost. Other colors available for an additional charge. Not recommended with Bison VB6000, VB2000T or VB6000T systems. Order SVB73 for use on sand volleyball courts. Five-year limited warranty. Approx. shipping weight: 75#. Installation to be completed in accordance with manufacturer's instructions.
