BALED Correct Call LED™ Backboard Alert Systems

Popular at the collegiate level LED Alert Systems are coming soon to a high school near you . Bison's LED system is easy to install behind virtually any manufacturer's glass backboard (42" or 48" high with no drilling and no visual hardware) . Will interface with virtually any scoreboard system that is capable of sending a signal from the official scoreboard time clock or shot clock to this 12 volt LED system . Six separate pre-assembled LED light strips are mounted in aluminum tracks with high tack, self adhesive mounting tape system for quick and easy installation . System includes LED strips for one backboard, transformer and all necessary components except the wiring that is required to run from the scoreboard signal location to the transformer box . Installation to be completed in accordance with manufacturer's instructions . Do not scale drawings . Five-year limited warranty .
